How Does MNT Work?

MNT is a token created on Ethereum platform, the way it works is the same as the other token created on ethereum Network.

Arbitrage trading is the profitable Business in Cryptocurrency world. The only problem trader faces in Arbitrage trading is converting their crypto coins in USD or stable coin. But those stable coin are also not available in all exchanges of world. In this situation , they are forced to use fiat currency or convert the coin into other stable coin that is accepted by that specific exchange.

But in Arbitrage trading, people don't has that much time to exchange. It's a matter of minute , the price of crypto changes in no time .So to overcome this problem, we have build **Money token** with the aim to get accepted in all of the exchanges .Beside this MNT will have very less transaction fee as well as fast transaction.
